OFFICE OF PETITIONS

In re Application of	:	
Sayyarodsari et al.	:	
Application No. 10/730,835	:	ON PETITION
Filed: December 9, 2003	:	
Attorney Docket No. 5650-03500	:	

This is a decision on the petition under 37 CFR § 1.78(a)(6), filed February 11, 2005, to accept an unintentionally delayed claim under 35 U.S.C. § 119(e) for the benefit of prior-filed provisional Application No. 60/431,821, filed December 9, 2002, as set forth in the concurrently filed amendment.

The petition is **DISMISSED AS MOOT.**

A petition under 37 CFR § 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000.

Along with the instant petition under 37 CFR § 1.78(a)(6), petitioner has submitted an amendment to the first sentence of the specification following the title to include a reference to the prior-filed application.

The instant pending nonprovisional application was filed on December 9, 2003, and was pending at the time of filing of the instant petition. While a reference to the prior-filed application was not included in an ADS or in the first sentence of the specification following the title, reference nevertheless was made in the oath or declaration filed with the above-identified application.

The current procedure where a claim for priority under 37 CFR § 1.78(a)(6) is not included in the first sentence of the specification or in an ADS but does appear either in the oath or declaration or transmittal letter filed with the application and the Office notes the claim for priority, no petition will be required to accept a late claim for priority. This is because the application would have been scheduled for publication on the basis of the information concerning the claim submitted elsewhere in the application within the time period set forth in 37 CFR § 1.78(a)(5)(ii).

However, on the other hand, if the USPTO does not note the claim for priority to the prior-filed application(s) set forth in the oath or declaration or transmittal letter submitted with the application, a petition will be required to accept a late claim for priority under 37 CFR §

1.78(a)(6).¹ In the instant case, the Office noted the claim for priority of the prior-filed application in the oath filed with the application, as shown by its inclusion on the filing receipt.

It is noted on the oath or declaration submitted with the instant petition that the claim for priority is being corrected to a benefit claim under 35 U.S.C. 119(e) rather than under 35 U.S.C. 120 as it was previously listed on the oath or declaration submitted on the application filing date. Petitioner is permitted to correct the benefit claim during the pendency of the application by submitting an amendment changing the first sentence of the specification. A petition under 37 CFR 1.78(a)(6) and the surcharge are not required because the Office was able to correctly schedule the application for publication with the relationship given.

In view of the above, the \$1370.00 petition fee submitted is unnecessary and will be refunded to petitioner's deposit account in due course.

Any questions concerning this decision on petition may be directed to Paralegal Liana Chase at (571) 272-3206. All other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This matter is being referred to the Examiner of Technology Center AU 2121 for appropriate action on the amendment filed February 11, 2005, including consideration of the claim under 35 U.S.C. § 119(e) and 37 CFR 1.78(a)(5) for benefit of prior-filed Provisional Application No. 60/431,821.
